

VESTA outer door sensor

- VESTA outer door sensor
- Detect unauthorized opening/closing of exterior doors
- High power magnet
- extension terminal
- IP66 protection.

**Reference / Model**

VESTA-335 / DC-32-EX

Outer door sensor

Detects unauthorized opening and closing of exterior doors, entrances, exits, etc.

Can be placed on metallic materials

Built-in extension terminal that allows it to be added to an existing wired sensor

Random monitoring signals for system health check and troubleshooting

Low battery detection

F1 radio technology increases communication range

868 MHz radio frequency

High power magnet

LED indicator as fault indicator and test mode

Front and rear tamper protection

Powered by 2 AA L91 lithium batteries

Battery life of up to 10 years

VESTA-335

DC-32-EX

VESTA outer door sensor

Reference / Model

VESTA-335 / DC-32-EX

Replaceable batteries without the need to remove the device from the installation

Operating temperature -25°C ~ +60°C

Relative humidity up to 85% (non-condensing)

Degree of protection IP66

Dimensions: 51.5 (W) x 83.5 (H) x 15mm
