Remote control of your security and home automation systems

**Many functions in one application** With VESTA's SmartHomeSec application you can remotely control and manage your security and video surveillance system and smart devices in your home or business.

**SECURITY SYSTEM AND VIDEO SURVEILLANCE**

- Reception and verification of panel events
- Instant alarm notifications with images
- Image request to PIRCAM detectors
- Remote panel arming
- DAHUA camera aggregation, through QR code scanning, and real-time monitoring by P2P
- SOS button with user geolocation report
- User access through biometrics (fingerprint and facial ID)

**ALL IN ONE SYSTEM**

- Geofence geolocation system, to mark the detection range (>100m) and perform actions (such as arming/disarming) or create reminders (turn the heating on or off, lights in a room, devices, etc.).
- Integration with Alexa and Google Home, for voice control
- Adding users and managing privileges
- Management of several panels with the same user
- Free app available for iOS and Android
