

Imagine the best, done!

Smart protection and total control of your home

Security, video and automation in a single solution

3-in-1 protection

Smart video

One App

Total control

vestasecurity.eu

A new way to protect your home

Security, video and automation work together to provide more comprehensive, simpler and smarter protection.

VESTA combines Intrusion protection, monitoring through smart cameras and the automation of different home functions in a single solution.

The system helps protect people and property in the home, lets you know what is happening at all times and can respond automatically to important situations, even when no one is at home.

Everything is managed from a single App, with different users, access rights and permissions to suit the needs of every family.

Complete protection

Security for people, the home and everything that matters

Continuous control

Live video, recordings and alerts so you always know what is happening

Smart response

Automated actions tailored to household routines and needs

QallMax, the intelligent core of the system

QallMax centralises security, video and home automation, allowing you to control everything easily from a single App.

SECURITY

PIR, PIRCAM, magnetic sensors, etc.

VIDEO SURVEILLANCE

Entry AI, Lite AI, 3in1 Lite, 3in1 Pro cameras

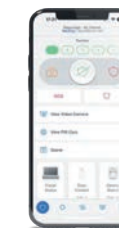

AUTOMATION

Temperature sensors, scene switches, etc.

APP

Notification with visual verification for total control

Protection

- 1 QallMax control panel
- 2 Touch keypad (x2)
- 3 Indoor siren
- 4 Indoor PIRCAM
- 5 Outdoor PIRCAM
- 6 Indoor PIR detectors (x2)
- 7 Door/window sensors (x3)
- 8 Flood sensors (x2)
- 9 Smoke and heat detectors (x2)
- 10 Smoke and CO detector

Access

- 11 Video doorbell
- 12 Relay controller (x2)
- 13 Smart locks (x2)

Video surveillance

- 14 Indoor camera
- 15 Outdoor camera

IOT SmartHome

- 16 Z-Wave thermostat
- 17 Motorised blind controller

A complete solution for the whole home

A single solution to protect people and property, monitor every area and automate home functions.

3-in-1 protection

A single system protects against intrusions, risks to people and damage that may affect the home.

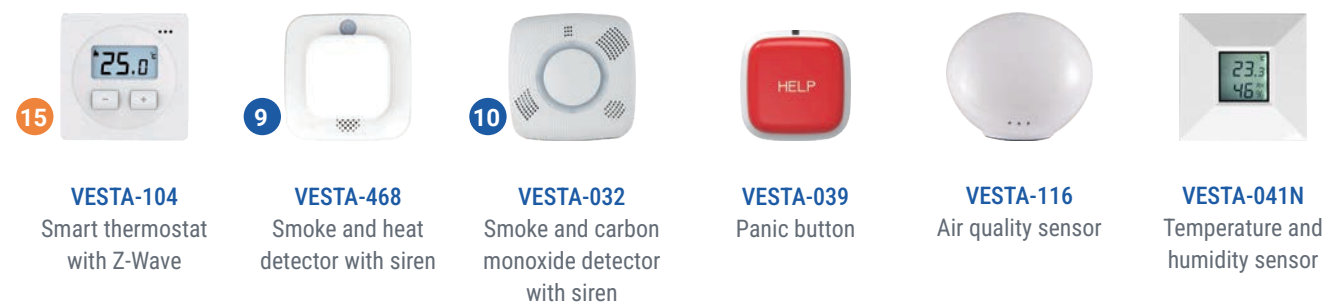

Intrusion protection

PIR and PIRCAM detectors, door/window sensors, sirens and visual verification to detect unauthorised access or movement.

Protection for people

Early detection of smoke, carbon monoxide and other risks to alert occupants as quickly as possible.

Protection for household property

Monitoring of water leaks and household incidents to act before they can cause more serious damage.

Smart access to your home

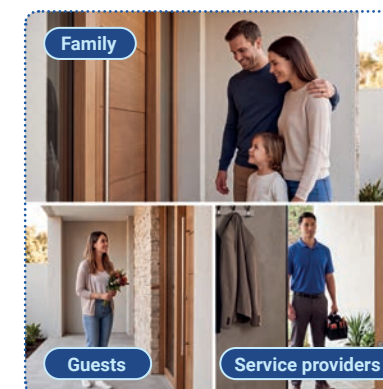

Manage who enters, when they enter and the status of the door from a single App.

More convenience, more control and simple installation for everyday use.

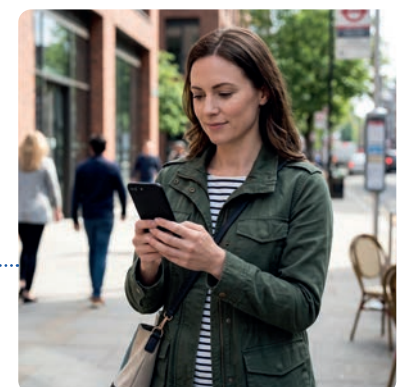

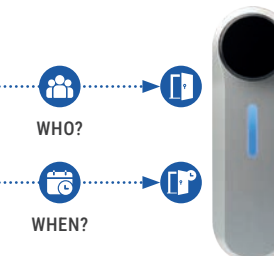

With the VESTA smart lock, you can open and close the door from the App, check its status and manage access using locally stored schedules that **remain active even without Internet.**

ACCESS MANAGEMENT

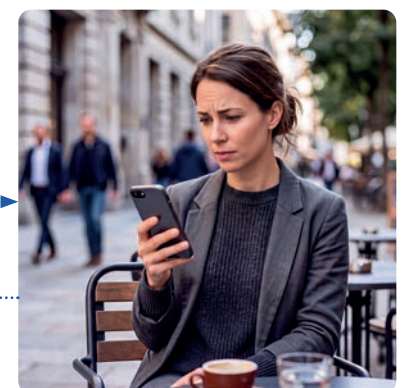

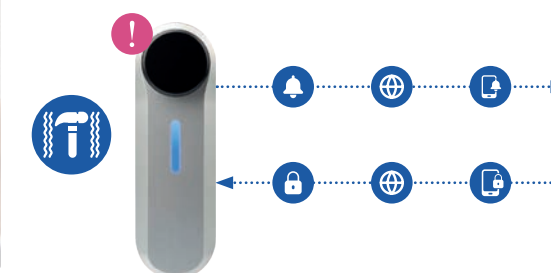

Manage from the App who can enter and when, with permanent, temporary or recurring access for family, guests or service providers.

AUTOMATIC SECURITY

Enhance access security with immediate alerts in the event of tampering attempts and check the lock status from the App.

Multiple opening options

Open via the App and, depending on the system configuration, also by keypad, fingerprint or physical key.

Simple installation

Installed on the inside of the door, with no building work and no need to replace the existing cylinder.

For the whole family

Manage different users and permissions to adapt access to each person and situation.

Many functions in a single App

With VESTA's SmartHomeSec app, you can remotely control and manage your security and video surveillance system, as well as the smart devices in your home or business.

SmartHomeSec

VESTA Security Alarm App

Designed for intrusion systems with integration to VESTA Advanced Video cameras, offering a unified and seamless security experience.

VESTA Advanced Video

VESTA Config Tool

Advanced configuration software

Allows you to locate, configure, update, and manage multiple VESTA Advanced Video cameras from a single interface.

Official mobile app

View live video, play back recordings, receive event notifications, and control devices directly from your smartphone.

VSS (Vesta Surveillance Station)

Professional video surveillance platform

Centralised video management, real-time viewing, video playback, and intelligent analytics functions.

Imagine the best, done!
